Term and conditions - Referral scheme.

Wagner Renewables is introducing a referral scheme for the chance to earn a £50 Love2Shop high street gift card.

The gift card will be awarded to any customers who refer a friend or family member to Wagner Renewables for the installation of a Solar PV system.

This scheme is open to any existing customers, suppliers, and staff of Wagner Renewables Ltd.

The card will only be awarded when a full solar PV system has been installed for the person that was referred. Gift cards will not be awarded for referrals who have repair, upgrade, or maintenance works completed. A full Solar PV system can include secondary systems in addition to an existing system.

Customers cannot refer themselves. There is no maximum amount of gift cards that can be earned in a 12 month period. Cards will not be awarded for unsuccessful referrals. You must ensure that the person you have referred to us mentions who they have been referred by. You can also contact us yourself to let us know who you have referred, however we cannot contact people without their written permission. Passing leads to us will not count as a referral without the referred party contacting us first.

The gift cards will be sent direct from the supplier of the gift card, we will not be liable for any postage issues or delays. Gift cards cannot be exchanged for a cash alternative. All terms and conditions of the Love2Shop card apply, and Wagner Renewables Ltd will not be held liable for any issues arising when using the card. More information about the Love2Shop gift card, including terms and conditions can be found here; <https://www.highstreetvouchers.com/gifts/love2shop-gift-cards>.
