

**The Wagner Renewables Pest Clip** has been developed in response to recent changes in the profile of solar PV module frames. The clip is designed to fit onto the frame of most 30mm solar PV modules.

- Securely grabs the module frame
- Fits 30mm frame heights
- No screws or drilling needed
- Doesn't affect the module warranty
- Black coating for a discreet look
- Colour coated metal for long lifespan
- Push-to-fit for easy install
- Only 2 - 3 clips needed for each frame side
- Designed to work with black and galvanised mesh
- Designed for 17-18mm or 32-33mm frame return

Patent Pending
